Project 5 Poster (2) with Mid-fidelity Prototype Demo

Group 9 Beaver Neighbor Center
Group members: Chi-Ho Chou, Danlin Song, Jiawei Luan, Siming Liao

1. User Need Statement

Sellers in a hurry to leave Corvallis need a platform to help them find potential buyers and sell their products as soon as possible.

2. Main solution idea

Sellers can make the posts with the selling items and proactively find the buyers who want to buy a particular item that just matches the sellers' item, and buyers can also make a wanted post and wait for sellers who wish to sell the products.
